

Captain Calico Jack's Guide to Access at Pirate's Quest!

1a. As you approach the building there is a flight of 13 steps – **1b.** however just along the road you will come across the driveway ramp, this route only has 3 steps onto the building level.

2. As you approach the shop there are 3 steps leading into the doorway.

3. Heading inside to where the tour begins there is a doorway leading into the Wreck Room – from here you will go through a bookcase door.

4. Inside section one there is a flight of 9 steps with a handrail. The ground is then flat for the majority of the tour.

5. In section two there is a doorway into the Tavern scene, which is lower than normal so requires you to duck. Inside here are two benches to sit on.

6. If you chose to go through the 'scare section' there is a flight of 7 steps, which are in the dark. The route inside the scare section is narrow and dark. As you come out of the scare section you will descend down 6 steps.

The rest of the tour is flat ground.

7. As you exit the tour there are 11 steps leading back outside.

The toilets can be accessed from the gift shop. They consist of 2 standard sized cubicles in both ladies and the gents, which also have 2 urinals.
